**Filed with State of Nevada and Washoe
County July 2021**

IVGID Indebtedness Report for the Fiscal Year June 30, 2021
Approved by the IVGID Board of Trustees July 13, 2021

EXECUTIVE SUMMARY

This Indebtedness Report has been prepared to fulfill the requirements of NRS 350.013 for the year ended June 30, 2021. The Incline Village General Improvement District (the District) is generally limited in the bonds it can issue by its statutory debt limit and the amount of revenue available to pay debt service on bonds. This report presents the outstanding and proposed debt of the District, its ability to afford such debt, and other items relating to the issuance of the debt by the District.

As of the fiscal year ending June 30, 2021, the District has outstanding debt totaling \$4,403,901 including \$3,593,734 of general obligation bond debt, \$721,497 in outstanding debt (revenue-pledged loan contracts) with the State of Nevada Revolving Fund, and \$88,670 outstanding debt on a medium-term capital equipment lease. The \$3.59 million in general obligation bond debt is comprised of \$769,000 of general obligation recreation revenue debt outstanding, and \$2,824,734 in utility general obligation revenue debt.

The District presently has a statutory debt limit of \$954,316,325, based on the final 2021-22 Redbook Assessed Valuation of \$1,902,632,649. Of this statutory debt limit, the District's overall debt as of June 30, 2021 results in \$949,912,424 (99.5%) of remaining statutory debt limit.

Notwithstanding this statutory debt limit, the District has established its own internal debt limit through Board Policy 14.1.0 (Debt Management and Limits) and related Board Practice 14.2.1 (Debt Issuance Limitations). The District's internal limitation is generally based on maintaining a debt coverage ratio over the term of an issue that reflects affordability relative to District's net operating revenues.

The internal limit set through Board Practice 14.2.1 establishes minimum debt service coverage ratio of 1.75 x coverage for "utility" (water and sewer) related debt service, and 1.5 x coverage for "non-utility" debt service. The Practice further states that while it is acceptable for this standard to be met, on average, over the life of the debt issue, the coverage ration should not fall below 1.0 in any one year.

For fiscal year 2021-22 the Final Budget (per Form 4404LGF) provides for the following debt coverage ratios, as computed pursuant to Board Practice 14.2.1:

	FY2021/22 Budget	Policy Level	Minimum Level
Community Services Fund	0.48	1.50	1.0
Beach Fund	674.33	1.50	1.0
Utility Fund	6.04	1.75	1.0

The debt coverage ratio for the Community Services Fund for FY2021/22 falls below the policy target level and minimal annual level as a result of the Board's action to draw down available fund balance to support both capital an operating expenses supported by this

IVGID Indebtedness Report for the Fiscal Year June 30, 2021
Approved by the IVGID Board of Trustees July 13, 2021

EXECUTIVE SUMMARY

fund. It should be noted, however, that the Facility Fee established for support of Community Services debt service (\$410,000), by itself, provides sufficient coverage to meet the minimum required coverage.

In addition to limitations imposed by the Policy's debt coverage requirements, this practice highlights that:

"the effective limitation on the total of bonds outstanding at a given point of time is expected to be a function of the feasibility in the marketplace for a proposed issue, combined with the District existing Bond Rating, the financial projections of the District and the ability to sell bonds within the projected parameters."

The budget for the fiscal year ending June 30, 2022, adopted on May 26, 2021, does not contemplate the issuance of any bonds in that fiscal year.

Form 4411LGF as of July 1, 2021, includes the District's Five Year Capital Plan (\$49,681,341) and the 2020-21 Carryforward List (\$1,625,000) for a combined total of \$51,306,341.

While securing additional bond debt is contemplated in future years of the District's Five-Year Capital Plan neither those projects nor any related bond is either budgeted or authorized to be issued for the fiscal year ending June 30, 2022. Further consideration and action by the Board of Trustees is required before any bond will be authorized or issued.

IVGID Indebtedness Report - Overview

Nevada Revised Statutes (NRS) require certain content as a part of the District's Indebtedness Report on Debt Management. These include:

Affordability of Existing, Authorized and Proposed General Obligation Debt

- *NRS 350.013 1.(c)(1) A discussion of its ability to afford existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt;*
- *NRS 350.013 1.(c)(6) A discussion of its sources of money projected to be available to pay existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt.*

General Obligation Debt Limit Statutory Reference

- *NRS 350.013 1.(c)(2) A discussion of its capacity to incur authorized and proposed future general obligation debt without exceeding the applicable debt limit.*

General Obligation Debt Comparisons

- *NRS 350.013 1.(c)(3) A discussion of its general obligation debt that is payable from property taxes per capita as compared with such debt of other municipalities in this state.*
- *NRS 350.013 1.(c)(4) A discussion of its general obligation debt that is payable from property taxes as a percentage of assessed valuation of all property within the boundaries of the municipality.*

Affording the District's Existing General Obligation Bond Indebtedness

The use of proceeds from the District's bonded indebtedness has been for recreation and utility service infrastructure. Prior to adopting plans to acquire this infrastructure the District studied and developed a plan for identified revenue sources to be used for the repayment of the bond principal and interest. Examples of these sources include an element of water and sewer user fees that are specifically stated for capital expenditure, including debt service, used to acquire such assets. The Recreation and Beach Facility Fee charged to the individual benefited parcels includes elements for capital items and related debt service.

None of the currently outstanding bond issues use a tax levied on the assessed valuation of property in the District to meet debt service requirements. Each issue

IVGID Indebtedness Report for the Fiscal Year June 30, 2021
Approved by the IVGID Board of Trustees July 13, 2021

has been or will be repaid from the identified resources developed from user fees or the Recreation and Beach Facility Fee (which is an availability of service charge as defined under NRS 318.197) and is collected on specified parcels within the District's boundaries as allowed under NRS 318.201.

Sources Available to Pay Existing, Authorized Future and Proposed General Obligation Bond Indebtedness

The District's annual operating budget process considers the use of resources in an order of priority. User fees and the Recreation and Beach Facility Fee are set at levels to assure the proper coverage of debt service requirements from each activity for its related bond(s). The capital improvement charges, which are a part of utility rates, are adopted by ordinance and are established in a process that allows public notice and input, before setting a schedule for the coming year and forward. The District's elected Board of Trustees adopts utility rates through an ordinance amendment. The Recreation and Beach Facility Fee is set each year and includes a matter of public notice and hearing before adoption in connection with the fiscal operating budget.

The assumptions for rate of collection have proven to be at adequate levels so that amounts realized are sufficient to meet intended needs including debt service requirements.

The 5 Year Capital Project Summary presented May 26, 2021 for the period July 1, 2021 through June 30, 2026 includes projects that may be financed, in part, through a future bond issue. The Board of Trustees has discussed the possibility of issuing new debt for selected priority projects, including Ski Way and Diamond Peak Parking Lot Reconstruction, renovation of the Incline Beach House. The projects that are potentially to be supported by new debt are contemplated within the five-year planning horizon, but have not yet been formally approved or scheduled. Any potential bond issue would not significantly affect the District's Debt Limit.

General Obligation Debt Limit

State statutes limit the amount of indebtedness to no more than 50% of the District's total assessed valuation. The District presently has a statutory debt limit of \$954,316,325, based on the final 2020-21 Redbook Assessed Valuation of \$1,902,632,649. Of this statutory debt limit, the District's overall debt as of June 30, 2021 results in \$949,912,424 (99.5%) of remaining statutory debt limit.

General Obligation Debt Comparisons

The District's general obligation bonds are issued pursuant to NRS Chapter 350 and Chapter 318. The District's general obligation bonds constitute direct and general obligations of the District and the full faith and credit of the District is pledged to the payment of the principal and interest, subject to Nevada constitutional and statutory limitations on the aggregate amount of property taxes. The bonds are payable from the general property taxes on all taxable property in the District. The bonds are secured by certain pledged revenues.

The general obligation bonds are payable by the District from any source legally available; at the times such payments are due, including the General Fund of the District. In the event, however, that such legally available sources of funds, including net pledged revenues, are insufficient, the District is obligated to levy a general tax on all taxable property within the District for payment of the general obligation bonds, subject to the limitations provided in the constitution and the statutes of the State of Nevada (the State).

In any year in which the total property taxes levied within the District by all applicable taxing units (e.g., the State, the County, the District, the school district, any city or any special district) exceed such property tax limitations, the reduction to be made by those units must be in property taxes levied for purposes other than the repayment of their bonded indebtedness, including interest on such indebtedness.

Nevada statutes provide that no act concerning the District's bonds or their security may be repealed, amended or modified in such manner as to impair adversely the bonds or their security until all of the bonds have been discharged in full or provision for their payment and reception has been fully made.

The District currently has no outstanding general obligation debt paid by the levy of a specific property tax.

Principal and interest on the District's debt are payable from the various net pledged revenues of the District. There is no impact on the property tax rate so long as the net pledged revenues are sufficient to pay debt service.

Method of Sale

NRS 350.013 1.(c)(5) Policy regarding the manner in which the municipality expects to sell its debt;

Bonds can generally be sold at a competitive sale, negotiated sale or to be privately placed.

Competitive Sale - Offering documents are sent to any firm interested in purchasing bonds. A day and time are chosen for the sale and bonds are awarded to the firm offering the lowest true interest cost on the bonds ("TIC"). The TIC is the discount rate which results in the present value of the future debt service payments equal to the bid for the bonds.

Negotiated Sale – A firm, or group of firms, is chosen in advance to offer the bonds for sale. At the time of the sale, interest rates and other terms of the bonds are negotiated with the Underwriter.

Private Placement – A purchaser, usually an individual or bank, is identified and the bonds are placed directly. Interest rates and other terms of the bonds are negotiated with the purchaser.

NRS 350 generally requires bonds issued by the District to be sold at competitive sale. For most District general obligation bonds, a competitive sale will usually result in the lowest TIC on the bonds. There are certain circumstances under which the District would consider a negotiated sale or private placements. Such circumstances include, but are not limited to:

- 1) Bonds issued with a variable rate of interest
- 2) Bonds rated below A- or not rated
- 3) Very small or very large bond issues
- 4) Unstable or highly volatile markets
- 5) Bonds with unusual security or structure

The District will follow the requirements of NRS 350.155 in choosing a method for its bonds. If the District determines that a negotiated sale is warranted for a general obligation bond or a bond secured by an excise tax, it will distribute a request for proposal to underwriting firms. The selection of an underwriter(s) will be based on a determination of the firm that demonstrates its ability to obtain the overall best interest rate for the District. Consideration in making this determination will be given to the firm's experience with similar financings, proposed compensation structure and marketing plan.

Operational Costs of Future Capital Projects

NRS 350.013 1.(c)(7) A discussion of its operational costs and revenue sources, for the ensuing 5 fiscal years, associated with each project included in its plan for capital improvement submitted pursuant to paragraph (d), if those costs and revenues are expected to affect the property tax rate.

The District has prepared a Capital Improvement Plan Summary, which is attached utilizing Form 4411LGF. The plan includes projects which affect general revenues as well as charges for services. These were all considered as a part of the process of developing the District's budget for the year ending June 30, 2021. Only projects scheduled for completion by that date are actually authorized with funding

IVGID Indebtedness Report for the Fiscal Year June 30, 2021
Approved by the IVGID Board of Trustees July 13, 2021

appropriated in the adopted budget. The remainder of the multi-year plan represents an intention for years 2 through 5. As such the approved projects for the year ending June 30, 2021 do not affect the property tax rate. No projects intended in years 2 through 5 contemplate an effect on the property tax rate to those related years.

Capital Improvement Plan

NRS 350.013 1.(d) either:

- (1) Its plan for capital improvement for the ensuing 5 fiscal years, which must include any contemplated issuance of general obligation debt during this period and the sources of money projected to be available to pay debt; or*
- (2) A statement indicating that no changes are contemplated in its plan for capital improvement for the ensuing 5 fiscal years.*

(See State of Nevada Form 4411LGF Five Year Capital Improvement Plan)

Chief Financial Officer of the District

NRS 350.013 1.(e) A statement containing the name, title, mailing address and telephone number of the chief financial officer of the municipality.

The Chief Financial Officer of the Incline Village General Improvement District:

Paul Navazio, Director of Finance
