

PYRAMID HIGHWAY PROJECT SPANISH SPRINGS CAB MEETING

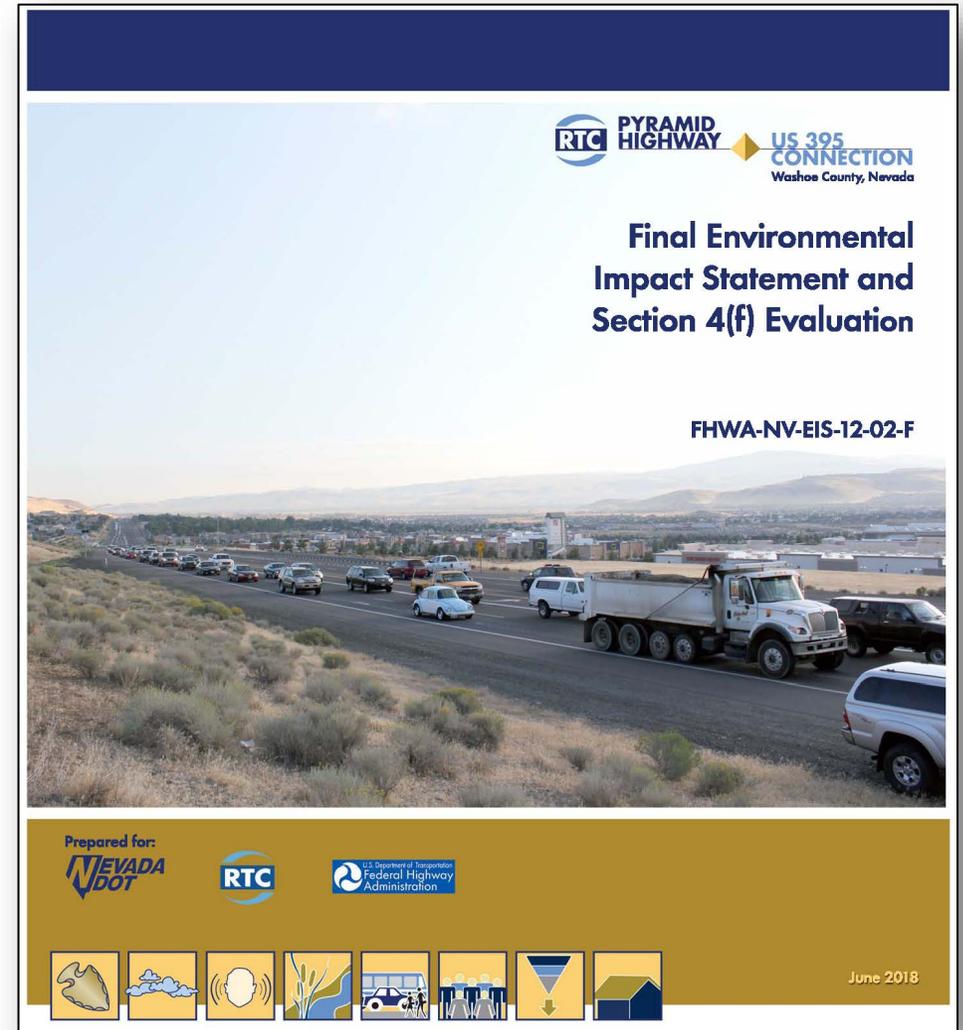

DOUG MALOY, PE, RTC PROJECT MANAGER
NANETTE MAXWELL, PE, NDOT PROJECT MANAGER
DECEMBER 1, 2021

- Pyramid Highway (State Route 445) is the most heavily traveled road in the Reno-Sparks area and carries almost 50,000 vehicles per day
- Crash rates exceed statewide averages
- Local access and connectivity needs improvement
- There are minimal accommodations for pedestrians and bicyclists

BACKGROUND

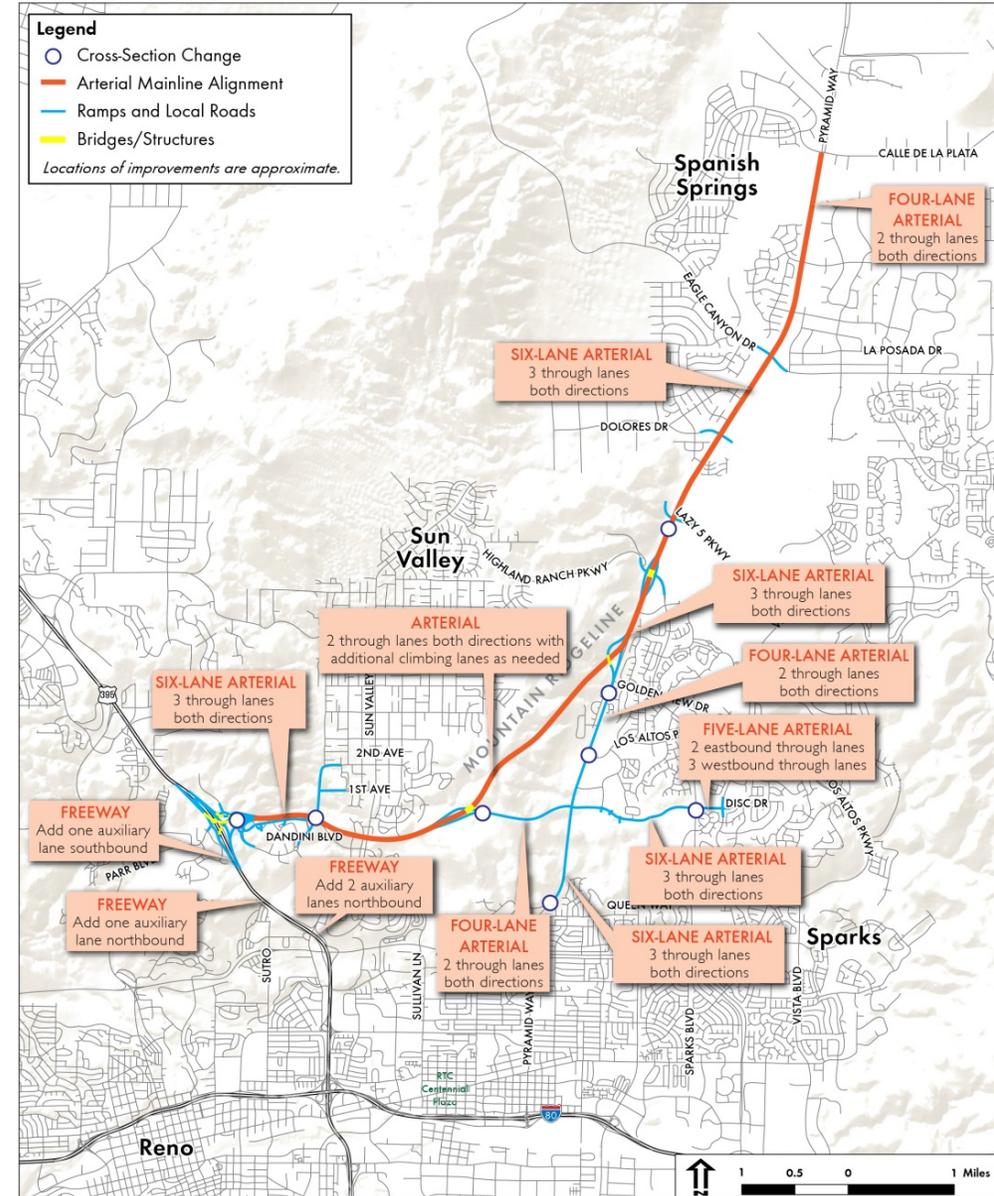

- Corridor Study completed early 2000's
- Pyramid Highway US 395 Connection
- Final Environmental Impact Statement completed June 2018
- Additional information: RTC's website <https://www.rtcwashoe.com/engineering-project/pyramid-highway-us-395-connection-project/>

All information is preliminary and subject to revision

PREFERRED ALTERNATIVE

- Widen Pyramid Way to 6 lanes south of Los Altos Parkway to Queen Way and improvements north of Los Altos Parkway to Golden View Drive (Phase 1)
- New 6 & 4 lane arterial US 395 Connector
- Interchange at US 395 Parr Boulevard/ Dandini Boulevard
- Widen Pyramid Way to 6 lanes north of the Connector to Eagle Canyon Drive/La Posada Drive
- Widen Disc Drive from Pyramid Way to Vista Boulevard
- Provide pedestrian, bicycle and transit amenities

PROJECT PARTNERS

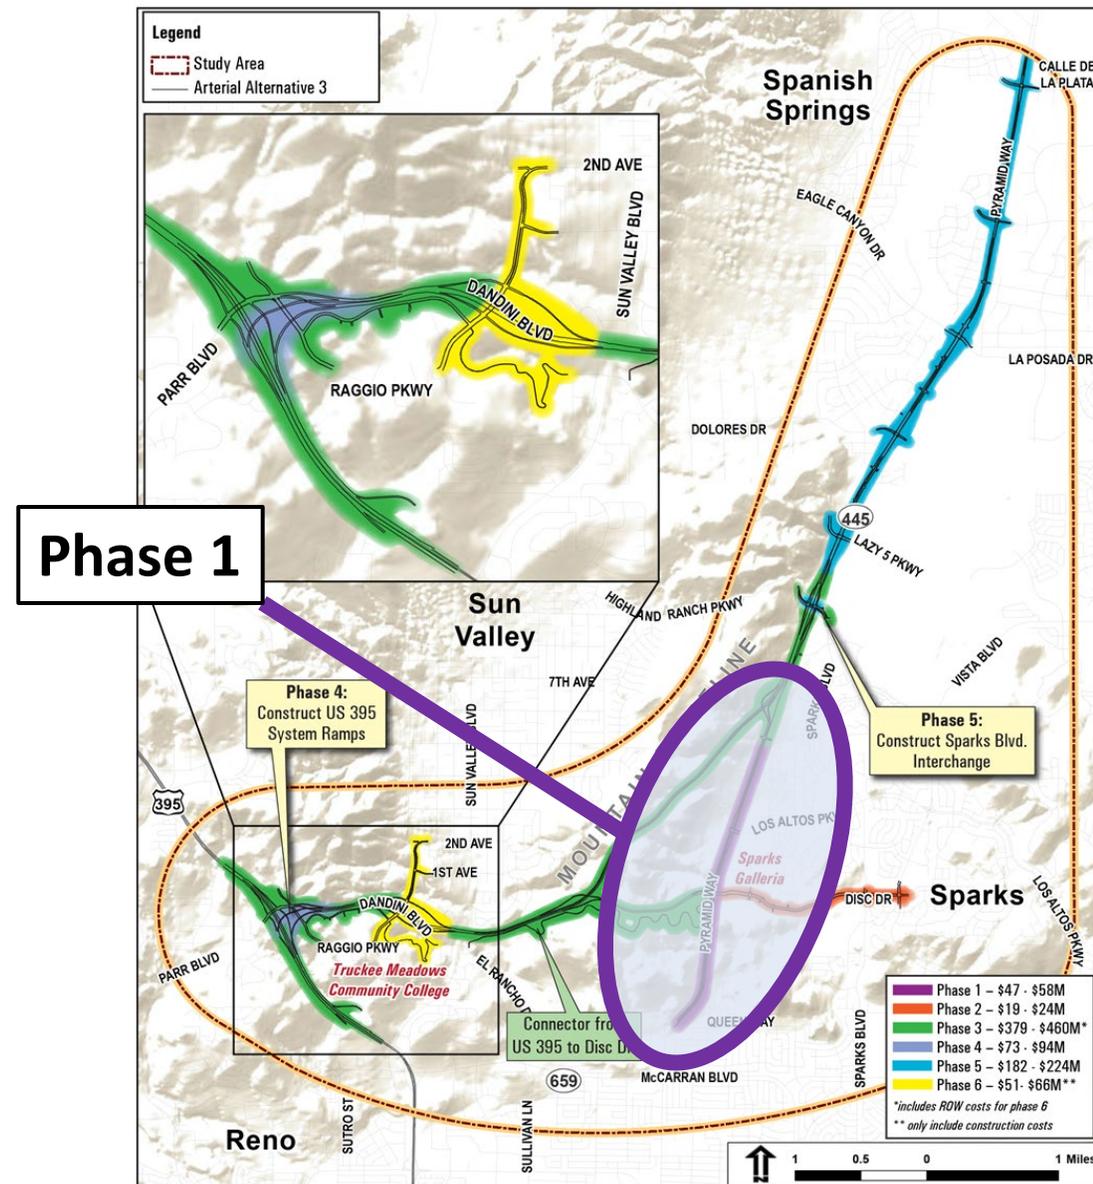

U.S. Department
of Transportation

**Federal Highway
Administration**

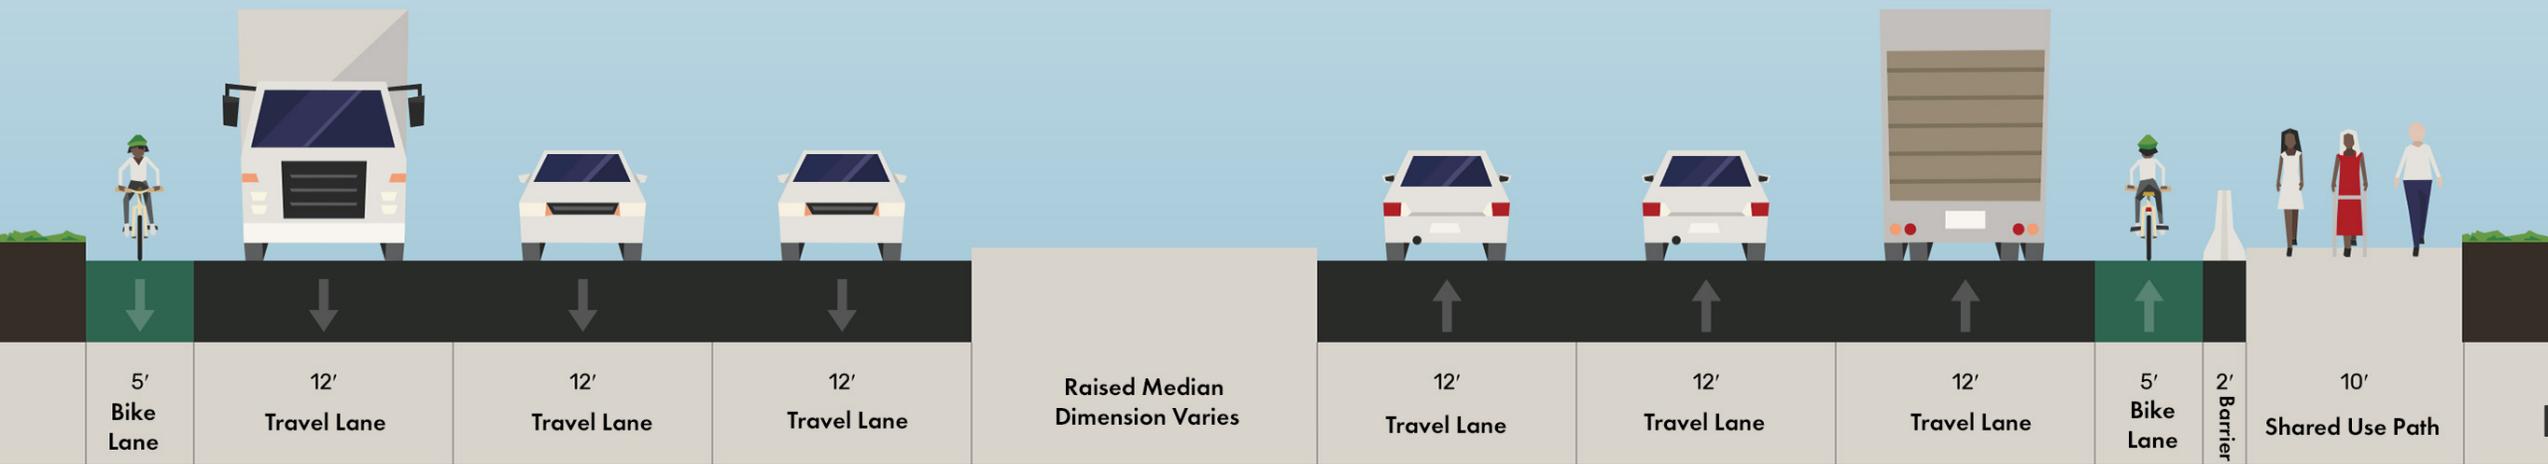

PHASE 1

- Widen 1.6 miles from Queen Way to Los Altos Parkway from four to six lanes
- Reconstruct 0.75 miles of four-lane roadway from Los Altos Parkway to Golden View Drive
- Install smart traffic signals, bicycle lanes, sidewalk, shared-use path, screening/sound walls and enhanced drainage infrastructure

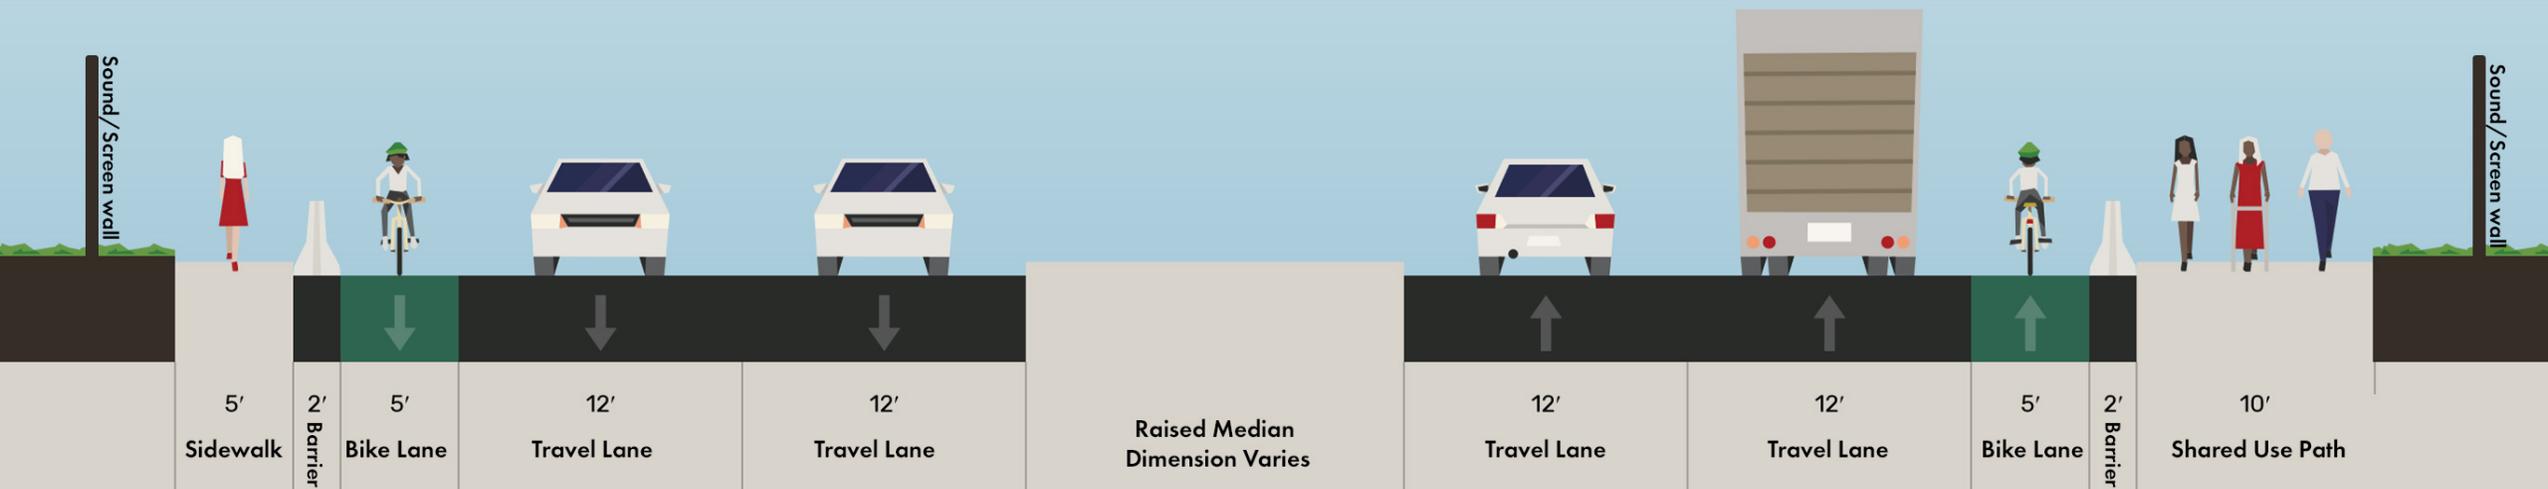

PYRAMID HIGHWAY PROJECT

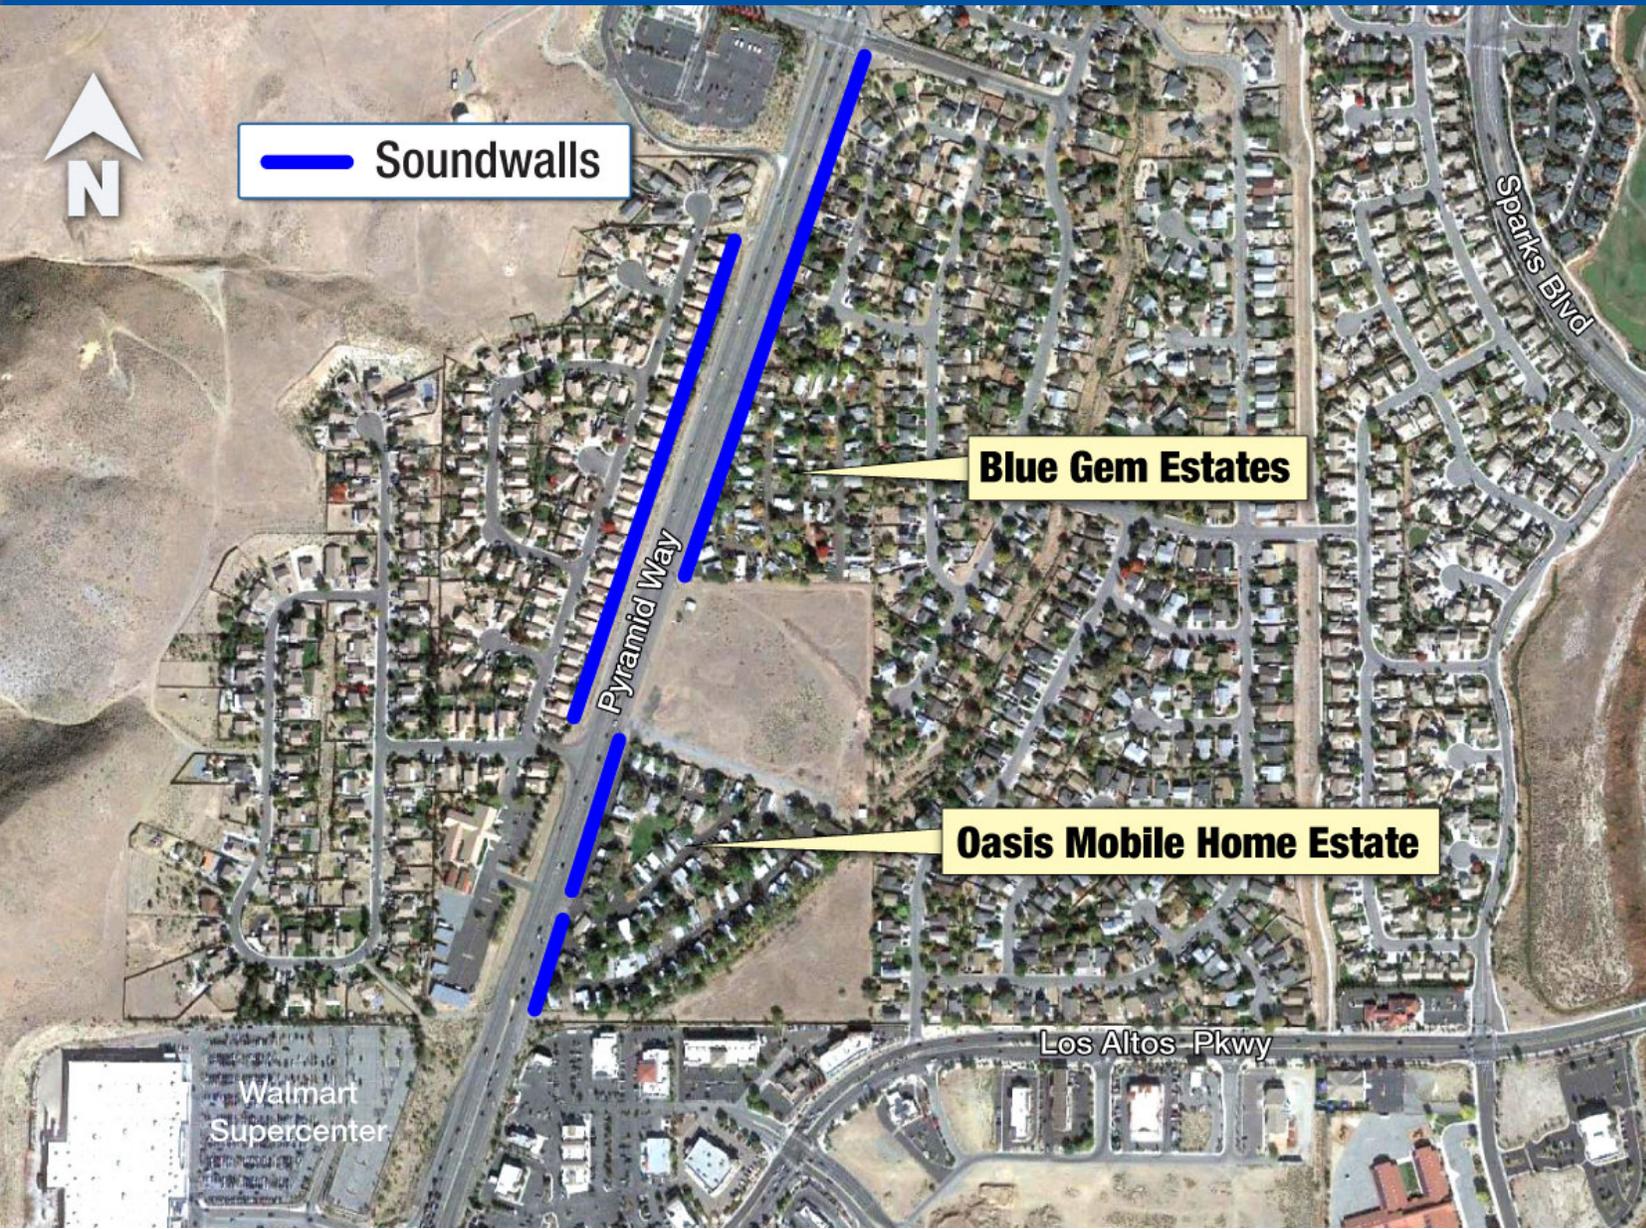

QUEEN WAY TO LOS ALTOS PARKWAY Proposed Improvements

PYRAMID HIGHWAY PROJECT

LOS ALTOS PARKWAY TO GOLDEN VIEW DRIVE Proposed Improvements

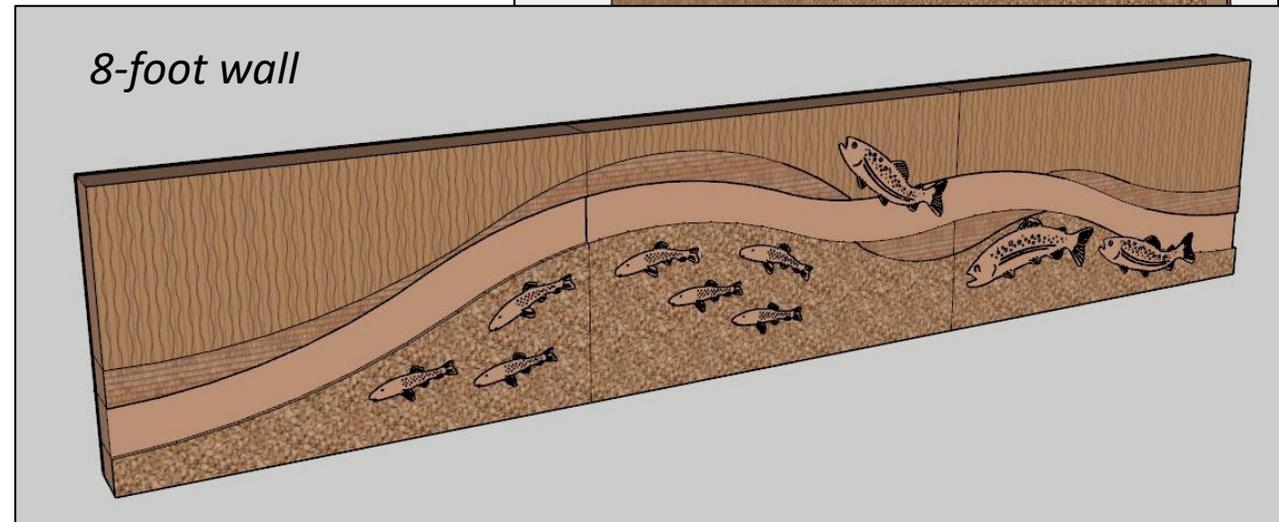

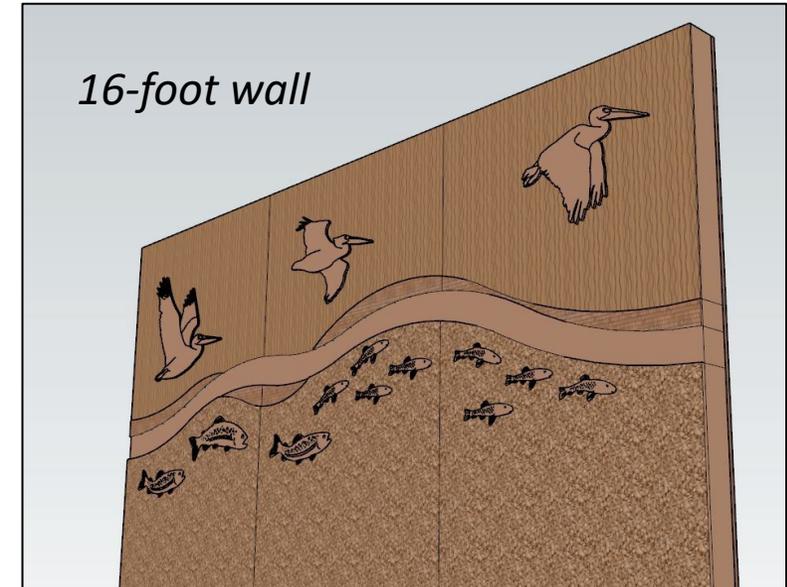

All information is preliminary and subject to revision

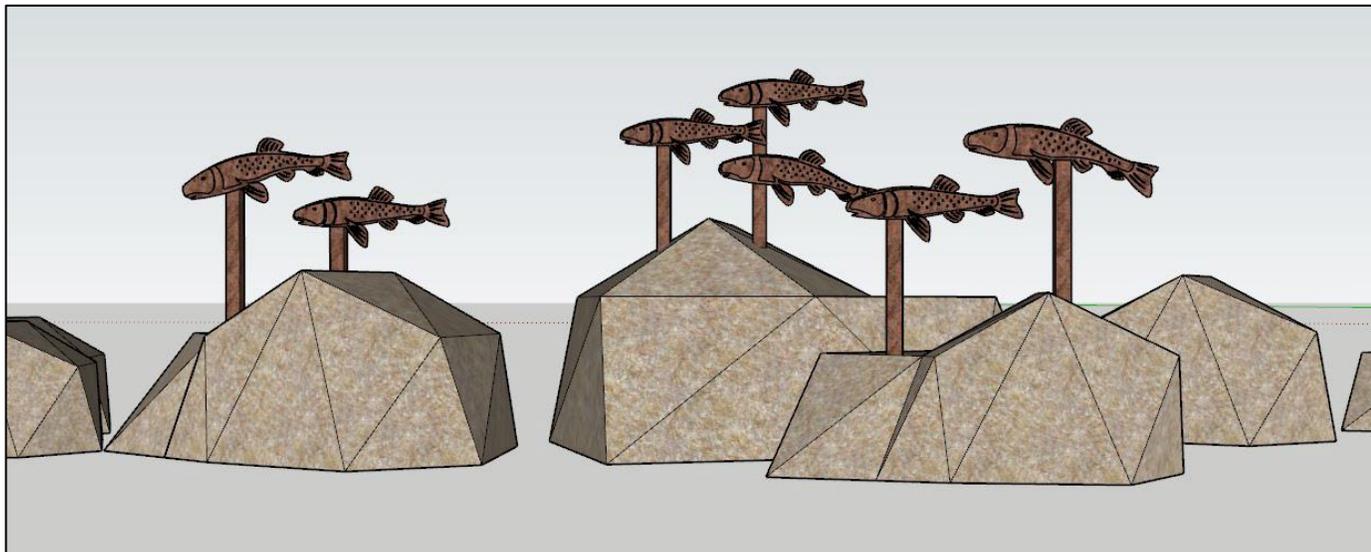

SOUNDWALLS

Concept statement: Pyramid Lake is rich with biodiversity. The tufa (too-fuh) rocks of Anaho Island provide a sanctuary for many species of waterfowl including American White Pelican nesting. Below the lake’s surface lives the endemic Cui-ui fish, a historical food source for Paiute people and the pelicans.

All information is preliminary and subject to revision

AESTHETICS – DECORATIVE FIGURES

PHASE 1 SCHEDULE

- Environmental: complete
- Preliminary design: complete
- Final design:
fall 2019 – summer 2022
- Construction:
winter 2023 – winter 2025

PHASE 1 COST INFORMATION

- \$54.1 million budget
- \$23 million federal BUILD grant
- Other federal, state, and local funds
- Cost includes right-of-way and construction
