Subject: Year-end numbers for Nevada Humane Society (2023 in review in Reno and Carson)

Hello friends,

As promised, the Nevada Humane Society team wants to broaden the level of information you have at your disposal regarding our organization as it relates to the professional services agreement with Washoe County Regional Animal Services. To begin, we will be showcasing our 2023 year-end numbers that reference both adoption and surrender numbers for the year. Despite an atypical year, the team continually rallied to prioritize the welfare of the animals needing assistance in northern Nevada.

A few notes of context are relevant here:

- Nevada Humane Society is entered into a public service agreement with Washoe County, stipulating that our nonprofit act as the official public surrender facility for Washoe County.
- Numbers below include counts for our Reno and Carson City facilities.
- In 2023, the Nevada Humane Society raised the alarm to the northern Nevada community multiple times that we were nearing capacity. As you well know, the demographics of Washoe County continue to flex and grow. Paired with high costs of living and inflation, this means our animal population is also impacted.

CARE FOR PETS. FIND THEM HOMES. SAVE LIVES.

Nevada
HUMANE SOCIETY

2023

Goanna was surrendered to the shelter with five of her siblings. These sweet pups needed some TLC before heading to their forever homes. They were able to explore life outside of a crate and find their forever homes because of you!

Vivienne was found outside in a snowstorm. She was surrendered by a good samaritan and entered our foster program to grow big and strong! She got the care she needed and was adopted because of you!

Milo was a high energy guy looking for the perfect fit. He needed someone who could put his intelligence to good use. He was adopted, went through Service Dog Training at the VA and is now assisting his human. He can do this because of you!

These are incredible accomplishments and are only possible because of donors like you. You make all of this possible!

over 17,500 animals helped

7,943 active donors

We look forward to sharing more about these - and other - numbers and benchmarks on the 26th.

As always, our invite to tour the facility remains open.

We look forward to improving care outcomes together in 2024.

Kindly,
Jerleen
