SUBJECT: Recommendation to approve the Interlocal Agreement for the Sharing of Costs for COVID-19 Research and, in accordance with NRS 244.1505, to approve a subgrant of American Rescue Plan Act funds through the Coronavirus State and Local Fiscal Recovery Funds (SLFRF), to the City of Sparks in an amount not to exceed \$504,258.66 for Washoe County's regional share of the research and monitoring of SARS-CoV-2 presence in wastewater and community prevalence monitoring due to the COVID-19 pandemic; with a grant period retroactive from September 1, 2021 through December 30, 2022, and if approved, authorize the County Manager to sign the Washoe County Subgrant Agreement between Washoe County and the City of Sparks; and approve the Resolution necessary for same. (All Commission Districts)

SUMMARY

The American Rescue Plan Act (ARPA) funds through the Coronavirus State and Local Fiscal Recovery Fund (SLFRF), provides for subaward relationships among local government units for the purpose of recovering from the public health emergency and negative economic impacts resulted from the COVID-19 pandemic. The City of Sparks subgrant will support the interlocal cost share agreement to the University of Nevada, Reno to investigate and monitor SARS-COV2 presence and prevalence in wastewater. Commissioners must approve a grant of public funds by a resolution, per NRS 244.1505.

BACKGROUND

In coordination with the City of Sparks and City of Reno, the Interlocal Agreement for the Sharing of Costs for COVID-19 Research. The two jurisdictions have submitted the agreement to their respective governing bodies for approval of the agreement. On May 9th, 2022, the City of Sparks Council approved its share of the interlocal agreement. On May 12th, 2022, the City of Reno Council approved its share of the interlocal agreement.

On December 15, 2020, the Board of County Commissioners approved funding for the first phase of the research proposal to conduct environmental surveillance of wastewater at the Truckee Meadows Water Reclamation Facility (TMWRF) and in the collection systems by monitoring of SARSCOV2 marker during the pandemic in the Truckee Meadows region. The monitoring data was used to develop models that can indicate community prevalence of COVID19 in the population. The modeling tools include the COVID19 epidemiological testing data from local health agencies used to develop a predictive ability for incidences of increase or decrease in COVID19. These tools help decision makers in development of management actions to deal with the pandemic in the region.

Phase two of the research will include ongoing monitoring of the prevalence of SARS-COV-2 marker in local wastewater.

FISCAL IMPACT

Should the board approve the Interlocal Agreement and this subaward of ARPA-SLFRF funds, the FY22 SLFRF COVID Recovery budget (Fund 270, Fund Center 270-8) will be adjusted with the following cross-functional net-zero appropriation transfers:

| Fund/Function | Cost Object & Description | G/L Account & Description | Amount |
|--|--------------------------------------|--------------------------------------|----------------|
