SAMPLE BALLOTS

- **Mailed in Two Parts**
 - Informational portion with ballot facsimile
 - 2018 Ballot Questions
- **Two Reasons**
 - Size of the sample ballot is large with the length of ballot questions
 - Cost savings to mail two pieces separately
 - Savings on cost of labor on manual insertions of an additional piece and postage savings

ELECTION MAILERS

What Voters Should Know:

- Can come from Political Parties, Nonpartisan Organizations, or other Third Party Groups
- These groups and these type of mailings are not coordinated by or affiliated with our office or the office of the Secretary of State
- Their mailing lists are also not coordinated with our office and can come from mail house lists or other sources
- By law, they must identify who the sender is and they cannot have any logo/seal of a State or local government agency or official election mail insignia

VOTER REGISTRATION AND ADDRESS CORRECTIONS

- Voter registration and address updates and corrections are a continuous part of what we do
- We perform several voter list maintenance projects each year along with notifications from the USPS or other sources; however, not everyone gets caught in these nets
- What to do if you receive election related mail at your address for someone who is not a resident of your address
- Voters can register without having a physical address assigned to you where you reside
