**Other Restricted Special Revenue Projects**

**Project Name**

Assessor Tech Fee Projects

**Project Description**

Pursuant to NRS 361.530, the county assessor receives one-quarter of the 8% commission reserved from the gross amount of personal property tax collections. In general, these funds are available to acquire or improve technology, archive records, or training on associated technology. FY 2013 projects include: RDE licenses, disk space and processors; Equipment/Software Upgrades; Sketch conversion costs; Building & Safety-Permits Plus Upgrade; Pictometry-potential enhancements for assessment purposes; and reserve for conversion contingencies. Some of this will be funded by new revenue and some by monies expected to roll from previously unexpended funds.

**PUBLIC WORKS CONSTRUCTION PROJECTS**

**Project Name**

Galena Creek / Joy Lake Bridge Scour

**Project Description**

Funds are provided in FY 12/13 for a project to rehabilitate the stream channel and installation of the rock riprap to protect Joy Lake Road Bride embankments and eliminate the scour effects of the stream. The Bridge was constructed around 1981 and floods in the past several decades, most notably in 1997, have resulted in the degradation, scouring and widening of the channel. The bridge embankments were originally protected by rock riprap, but the riprap has almost entirely disappeared as a result of the flood events. The Nevada Department of Transportation (NDOT) has identified the Joy Lake Road Bridge as a "scour critical" bridge.

**PUBLIC WORKS CONSTRUCTION PROJECTS**

**Project Name**

Longley Lane Environmental Compliance

**Project Description**

Funds are provide in FY12/13 to correct environmental areas of concern in which the Longley Lane Maintenance Facility is not in compliance with stormwater discharge regulations. Corrections include: connection of an overflow pipe from the high pressure truck wash system to the sanitary sewer; instillation of enhanced sand/oil separators to treat and re-circulate water for reuse in the truck wash and brine systems; and a heated slab in the truck wash bays to provide enhanced safety for personnel during icy winter conditions.

**Project Name**

230 Edison HVAC upgrade

**Project Description**

Complete upgrade of the heating and cooling system for the 230 Edison building. The current system is one of the most energy consuming systems within the county inventory and it was not designed to handle a server room and other high intensity technology applications. The new system is designed for the current use which will lessen the energy consumption and cost, reduce risk of hardware failure due to overheating, and provide better user comfort.

**Project Name**

Purchase storage warehouse

**Project Description**

Funds are provided to purchase a 32,000 Sq. Ft. warehouse, which would eliminate the need for the leases of the Registrar of Voter's Rock Boulevard warehouse and Search and Rescue. This move to a County owned facility would create a total 10-year savings of \$1.4 million (or an average of \$142,000 per year over next ten years). This move also allows the Registrar of Voter's warehouse and Records Retention to be moved out of the Flood Plain, which will reduce future risk of possible flood damage.

**Project Name**

Rancho San Rafael-Irrigation System Replacement Phase I

**Project Description**

Funds are provide in FY 12/13 for phase I of the replacement of the irrigation system at Ranch San Rafael Park, which was originally installed in 1982/83. The system is beyond its useful life and suffers daily failures, some of which cause facility damage and consume tremendous amount of staff time to repair. Phase I would fix the most pressing issues until future funding could be dedicated to replace the remainder of the irrigation system.

**Project Name**

Electricity Upgrade at Jail

**Project Description**

This project will provide funding in future years to provide an upgrade to the electricity capacity in the County Jail. Currently, every time there is a need to change the electricity load, a work-around has to be completed because there is not enough capacity for further increase in demand at the building. In the future, this could provide a risk to continue operating the building as-is.

**Project Name**

District Court Building

**Project Description**

This project will provide funding in future years to build a new District Court House. The current facility is not designed to national court standards and is not conducive to providing efficiency in operations. In addition, the current court house was built for a number of different functions which further decrease the ability of the Court to process cases in the most effective manner. The current building also has asbestos, which further reduces the County's ability to remodel the current building.

**WATER CONSTRUCTION PROJECTS**

**Project Name**

Spanish Springs Sewer Phase 1B

**Project Description**

Funding is provided in FY 12/13 for the construction of a new gravity sewer system in Spanish Springs, which will allow for the conversion of septic systems to municipal sewer. The project will remove 167 properties that are currently using septic systems and is a requirement of the Nevada Division of Environmental Protection (NDEP) due to impacts on local ground water supplies from septic systems.
