SECTION 2. Section 110.304.25 is hereby amended to read as follows:

Section 110.304.25 Commercial Use Types. Commercial use types include the distribution and sale or rental of goods, and the provision of services other than those classified as civic or industrial use types. All permanent commercial uses are required to operate from a commercial structure.

- (aa) Professional Services. Professional services use type refers to establishments which provide professional services to individuals or businesses, but excludes offices servicing walk-in customers which are classified under the administrative offices use type. Typical uses include law offices, real estate offices, insurance offices and architectural firms.
- (bb) Recycle Center. Recycle center use type refers to facilities for the collection, as a commercial enterprise, of household recyclables such as newspapers, bottles and cans. Recycle centers do not include recycle facilities existing as a part of a refuse pickup service or recycle bins used for donations to non-profit organizations. The following are recycle center use types:
 - (1) Full Service Recycle Center. Full service recycle center refers to large, fully attended recycle centers accepting paper, plastic and glass household recyclables and may include processing or sorting of the recyclables.
 - (2) Remote Collection Facility. Remote collection facility refers to a center for the acceptance, by redemption or purchase, of recyclable materials from the public. Such a facility does not process the recyclables on site. Typical uses include reverse vending machines.
 - (3) Residential Hazardous Substance Recycle Center. Residential hazardous substance recycle center refers to specialized recycling centers that receive household hazardous substances such as household paint, household cleaners and automobile engine oil.

- (cc) Repair Services, Consumer. Repair services, consumer use type refers to establishments primarily engaged in the provision of repair services to individuals and households rather than firms, but excludes automotive repair. Typical uses include appliance repair shops, apparel repair firms or instrument repair firms.
- (dd) Retail Sales. Retail sales use type refers to retail sales of commonly used goods and merchandise, either free-standing or within a commercial center, but excludes those uses classified under other use types. The following are retail sales use types:
 - (1) Convenience. Convenience refers to establishments which provide a limited number of frequently or recurrently needed personal items or services for residents of an immediate neighborhood. Typical uses include convenience stores, small grocery stores, barber shops, beauty parlors, dry cleaners and self-service laundromats.
 - (2) Specialty Stores. Specialty stores refers to establishments which provide a variety of retail or personal services needs for residents in the larger community area. Typical uses include supermarkets, super drugs stores, clothing boutiques, antiques, bookstores, furniture stores and auto parts.
 - (3) Comparison Shopping Centers. Comparison shopping centers refers to retail establishments that provide a wide variety of retail and personal services that cater to the regional needs. Typical uses include full-line department stores and warehouse-styled retail outlets.
- (ee) Secondhand Sales. Secondhand sales use type refers to establishments primarily engaged in the sale of goods and merchandise which are not being sold for the first time, but excludes those classified as animal sales and services and automotive and equipment. Typical uses include secondhand stores and thrift shops.
- (ff) Transportation Services. Transportation services use type refers to establishments which provide private transportation of persons and goods. Typical uses include taxi services and commercial postal services.
- (gg) Winery. The Winery use type refers to a facility comprising the building(s) or space used to make wine as an alcoholic beverage obtained by the fermentation of the natural content of fruits or other agricultural products containing sugar. A winery includes crushing of fruit, fermenting, bottling, blending, bulk and bottle storage, aging, shipping and receiving of wine making materials, laboratory equipment, associated maintenance equipment, and administrative office functions related to the operation of the winery. A winery may or may not have a vineyard associated with it and may include a public tasting room and the sale of merchandise related directly to the winery. A winery may only sell at retail by the bottle or serve by the glass, on its premises, wine produced, blended, or aged on site by the winery subject to any limitations set forth in NRS 597.240.

A winery may be established as a stand-alone principal use type or in combination with residential or other authorized use types. The growing of grapes for use in a winery use type or in wine making is classified as Crop Production, a separate Agricultural Use Type. Wine making in the urban, commercial or industrial regulatory zones, or in conjunction with the manufacture of other types of intoxicating liquor, is classified as Liquor Manufacturing, a separate Commercial Use Type. Any allowed winery use type requires the issuance of the appropriate Washoe County business and liquor licenses pursuant to Chapters 25 and 30 of this Code. The business license application process for an allowed winery shall include the noticing of all adjacent property owners within 500 feet of

the subject parcel, homeowners associations or Architectural Control Committees that are registered with the Building and Safety Division which have an interest in the subject parcel, and any properties that share a privately maintained access road to the subject parcel. Review and approval of a business license application to establish a winery shall include, at a minimum, review by the Washoe County Health District, the fire department of jurisdiction, and any General Improvement District with jurisdiction.

Winery with Special Events. Except in the Suburban Residential regulatory zone, a winery approved through an Administrative Permit may include, as part of the Administrative Permit application, provisions for conducting recurring special events as ancillary uses to the principal Winery use. "Special event" means an assembly of less than 100 persons on any one day of the event. Such recurring special events may include, but are not limited to, weddings, tours, promotional events, entertainment (indoor or outdoor), wine and food pairings, and craft fairs. Recurring special events proposed in conjunction with a Winery use must be included in the Administrative Permit application authorizing the Winery use. New or amended proposals for special events shall require either an amendment to the existing Administrative Permit (i.e. Amendment of Conditions) or a separate application for a Temporary Special Event Business License pursuant to Chapter 25 of this Code through the Business License division.
