Variance

Washoe County Code (WCC) Chapter 110, Article 804, Variance, provides a means to alter the requirements of the Development Code standards, in specific instances where the strict application of those requirements would deprive a property of privileges enjoyed by other properties with the identical regulatory zone because of special features or constraints unique to the property involved. A Variance does not give the power to take action which, in effect, allows a land use in contravention of the applicable regulatory zone or in any other way changes the applicable regulatory zone. A Variance cannot be used to vary the standards contained in Division Five, Signs, of this Development Code. Additionally, this article cannot be used to vary the maximum size of a detached accessory dwelling except as stipulated in Article 306, Accessory Uses and Structures. See WCC 110.804, for further information.
