Community Services Department Planning and Building 1001 E. Ninth Street, Bldg A Reno, NV 89512-2845

To: The Planning Commission:

This letter is in regards to a setback variance request for 842 Jennifer Street, Incline Village, NV 89451. APN: 125-220-20.

We are proposing to add 2 rooms on the 2nd and 3rd story to the front of the existing building. The current building is 35' from the street. The property line shows a setback to the building of 20'. The two rooms on the 2nd and 3rd story that we are proposing are 5' over this setback and 5' from the face of the existing building.

In my naive view of 110.80.25 we find the special circumstances described in (a) to be

#### 1. Exceptional narrowness, shallowness or shape of the specific piece of property

a) The total width of the lot is only 54.88ft which is a narrow lotb) The property line and the setback line are angled at the front of the property relative to the face of the house.

2. By reason of exceptional topographic conditions The defining characteristic of this neighborhood are the views of Lake Tahoe. These rooms are our only option for maximizing the view potential of the site and the livability of the house.

# **3.** Other extraordinary and exceptional situation or condition of the property and/or location of surroundings

The house is set back much further than most of the neighbors' houses with a much longer driveway. We measure 35' from the house to the edge of paving on the road. When we look at the existing surveys and recorded property maps, we measure 20' from the actual property line to the house. We are proposing to go an additional 5ft forward from the front of the building (only on the 2nd and 3rd story) which would bring the property to 30' from the road and 15ft form the recorded property line.

Thank you for reviewing this application. Please call or email if there is anything that I can add or do.

Regards,
