

To whom it may concern,

I am in opposition to the construction of the detached structure on 705 Oro Loma Rd.

I live two doors down from this address. I have looked at the plans and find them to be a probable eyesore.

A industrial type metal structure is not fitting to the nature of the neighborhood.

Also, I believe the owner intends to conduct his business in this structure. Although I have no direct knowledge of this. I am told he has a marine engine service business.

I am not in opposition to any structure just not a metal industrial looking thing. I would rather he builds something more along the lines of a barn, wood or stone façade.

We live in one of the most beautiful places on earth. I hope we can keep it that way.

Thanks JP
