I'm Monty Guthrie a resident at 1400 Doyle In and since I moved here eight years ago, I've been stalked, harassed, locked up and thrown in jail from abuse of power, had my property stolen by thieves, Washoe county sheriff's, Lassen county sheriffs, this all backed up with undeniable evidence that could not be argued in a court. I have evidence of all these crimes against me by fish spring ranch, NV energy, and as you can see by BLM. Which BLM is a part of approving these projects. I've had to deem all government a threat to my safety based on the undeniable evidence I have of every right and crime that could be violated or committed against an American. My life has been put in extreme danger by all listed and it can't be denied. This blm ranger drove by my property and then turned around and drove by again, trying to intimidate me through my camera. This is privately owned land right here and he had no reason while on the clock to be driving by my house other than for intimidation purposes. This matter has to be settled and settled immediately, I don't know if you need to call DOJ or the FBI in to investigate my claims yourselves but this project cannot be approved. I have a single mother of two who was also attacked and run off her property by Rob fronecone and Bob Thompson. Who are affiliated with fish springs ranch llc., who sell power to NV energy and who blm approved the first solar project. I can prove everything beyond a reasonable doubt and am in fear for my life. This will be one of a few emails I will send out. With some evidence to prove the lying and crimes committed against me. I did report this to blm to find out who this tyrant is and why he drove by my house this day. Washoe county sheriff's stole this very camera that captured this video and the fish springs homicide in which Washoe county sheriffs tried to frame me on, and thieves going on my property which Washoe county sheriff's lied to the Gerlach community advisory board about the property burglaries that take place out here. I can't provide all my evidence because it's part of an ongoing criminal investigation of mine. This project must not be allowed because everyone involved in that project are criminal who committed very serious crimes against me. The news is supposed to report all these crimes, their going to do a series on all these stories I have. This email along with the other ones will be part of my evidence of the steps taking by me to stop this attack on me and if this matter isn't handled to show the American people! All these entities are criminals and where this keeps getting more dangerous for me is the conflict of interest that lie between all governments. For example, I'm making you aware of crimes committed against me by Washoe county sheriff's and your department is a Washoe county department, Washoe county sheriffs who have endangered my life attend these county meetings, so this is as dangerous as situation get. Please let me know how we resolve this and to be clear I'm not interested in jumping through circus hoops, my life is in extreme danger and that is all I'm focused on remedying. Thanks
