RE: OPPOSITION: Renaming of Street: Larkin Circle Changed to John Phillips Circle
Sparks, Nevada 89431
Meeting ID 814 0111 5663

Dear Ms. Lacey Kerfoot:

This letter is written to oppose the renaming of Larkin Circle to John Phillips Circle. The Larkin Circle name came to being in the 70's during the filing of the initial subdivision map.

Our firm is the owner of the seven-acre property on the northeast corner of East Greg Street and Larkin Circle.

The reason we oppose this action are:

1. All business, who now have a Larkin Circle address now, would have to incur the expenses related to an address change to revise their stationery, numerous multi-state business licenses, professional licenses, business cards, websites, notices to their customers and suppliers, promotional material, misinformation on GPS sites, etc., etc.
2. The City of Sparks would also have to endure the expense of removing and replacing current street signs.
3. While Mr. Phillips may be a fine man, there are many individuals with a long-time association with this particular industrial subdivision. Among these names are: Ferretto of Peavine Construction, Meiser of the Eastgate Center, and the developers of the subdivision: Merrill, Schiftner and Meyers. One could add to this the long-term other property owners' names of Pick-N-Pull and Bragg Crane.
4. Why rename the street for what seems to be an ego message?

Thank for your consideration.

Sincerely,

GV EGC LLC
