

To: Washoe County Deferred Compensation Committee

Date: January 26, 2019

Subject: Opening on the Committee

From: Lisa Gianoli

I have been made aware of an opening on the Washoe County Deferred Compensation Committee (Committee). I would like to put my name forward for consideration for the opening. I was a member of the program from 1994 to 2007 as an active employee with Washoe County. I continue to have funds in the program as a retiree. I have always stayed interested in the program and would enjoy being part of managing it into the future.

I feel my back ground as well as the fact that I have been a participant for the past 25 years in the Washoe Program and prior to that I was a participant with another employer since they became available in the 1980's to public employees. I spent my career at Washoe County in the Finance Division with the last eight years as Budget Manager. In that position I was involved with the various benefit programs provided by Washoe County to its employees and retirees. I believe this experience as well as my ongoing interest as a member of the program would be a good addition to the Committee.

I am still currently involved in local government issues with my consulting business which provides government relations services at the local and state level. My focus is on fiscal issues that have impacts on local government across the State of Nevada.

I am currently Chairman of the Reno Tahoe Airport Authority Board. The Authority is a quasi-governmental entity. In this role I am also involved in their deferred compensation program.

In closing, I would enjoy serving on the Committee and feel I bring a good background and understanding of the Program. I would enjoy being a part of the Committee to contribute to it continuing to be a well-managed plan. I appreciate your consideration.
