

We are excited to announce that our region has been selected to host the Transforming Local Government (TLG) Conference in 2019. This conference attracts more than 500 of the most innovative local government professionals from the United States and Canada and will be held in downtown Reno April 9-12, 2019. The conference is a product of the Alliance for Innovation and is recognized for its dynamic content, which encourages team building, free thinking and fosters unprecedented ideas. Participants hear presentations directly from the teams that have created some of the most exciting and innovative projects in local government and we are thrilled to be the hub for these innovators in 2019.

As you know, our region has a lot to boast about with our unbeatable weather; innovative new companies arriving regularly; and a thriving entertainment, arts and events culture scene. **We need your help** to make this conference one to remember for participants and their families. Please consider joining our conference committee either as a participating member or event sponsor so we can show off all that the region has to offer. We will be reaching out to you in the next few weeks to secure your commitment and thank you in advance for your consideration and support of this important event.

Sincerely,

Sabra Newby
Reno City Manager

John Slaughter
Washoe County Manager
