

A photograph of a garden bed. In the background, there is a wall made of large, stacked, light-colored stones. To the right, a wooden fence is visible. The garden bed is filled with young green plants and is bordered by a line of small, light-colored stones. Several black irrigation tubes are laid out in the garden bed, with small wooden stakes placed at intervals. The ground is covered with dry pine needles. In the foreground, there is a gravel path. The overall scene is outdoors, likely in a residential or community garden setting.

Eagle Scout Project Presentation

Stone Rasmussen

The Project

- New stairs out of railroad ties
- New path with type two road base
- New signage system
- Extended fencing
- Staining the fencing
- New plants
- General cleanup

Before my project

Impact

- Raised \$800
- Unused \$200 donated to the Galena Creek Regional Park Visitor's Center
- New native species of plants
- Easy-to-use signage system

Volunteers and Donors

Overall, we had around 30 people come over 2 days, and \$800 raised toward this project.
