9. Park/Program of the Month – Washoe County Trails Program, presented by Trails Program Coordinator Christina Thayer.

Chair Joell stated that he and his company does trail work for Christina. Christina Thayer, Trails Program Coordinator gave a presentation on the program.

In response to Commissioner Jones' concerns about e-bikes being dangerous and being involved with injuries and fatalities, and a potential enforceable speed limit, Christina stated there is no easy answer, but working with other departments, to improve roadways with bicycle lanes to encourage use on pathways rather than trails, education and creating a culture of shared trail use can help. The issue is speed with all types of vehicles (scooters, skateboards, analog bikes, etc.) Commissioner Jones stated the transportation and Safety Board has stated fatalities have increased and that e-bike safety is a serious issue. Christina agreed and said

that she was open to suggestions. Chair Joell added that this is a difficult issue and it not an e-bike issue, but riders without training and safety education. Chair Joell suggested we will likely see more of this topic in front of the commissioner or in updated codes in the future.

Chair Joell also added that Washoe County staff has inherited decades of trails with poor planning and design and applauds the staff's efforts to improve the trails and reduce the maintenance needs, Washoe County is the only jurisdiction with a Trails Program.

In response to Commissioner Aranda's question on advertising NVTrails to the public, Christina stated the website and interactive mapping has been updated, access to the information from NVTrailFinder.org and advertising with volunteer partners. Chair Joell added that All Trails is not recommended for trail information as it is user created and NVTrailFinder is vetted by the Landowners and Managers. Chair Joell also added that there is a Washoe County Trail Guide that may need to be updated but is available to the public.

In response to Chair Joell's question about exceptions for large donations, such as a building or park, Colleen stated that there is a separate naming policy for those situations.

In response to Commissioner Aranda's question on the existing memorials in parks, Colleen stated that existing plaques will be grandfathered in and the new policy would not apply and they would not be removed.
