

WHO ARE WE

We Are Community

- Proudly we have been teaching under this banner for over two decades.
- We are Nevada's **ONLY, ALL 5-star** reviewed training and shooting facility.
- We feel we are truly the ultimate destination for all-round safety and education!

In this Community

- We're all about community first at Nevada Firearms Academy and Range.
- Through blood drives, Diva's Day Out events, cigar samplers with the Elks Lodge, Boy Scouts of America, and local radio shows focused on education and so much more, we strive to give back to our Northern Nevada roots.

What We Offer

Children's Education

- At Nevada Firearms Academy and Range, it's our mission to provide comprehensive safety training, and that includes our very own 'Avoid, Deny, Defend' class specifically designed for children. We understand the importance of teaching our youth how to stay safe in a variety of situations, and this class has been meticulously crafted to do just that.
- But that's not all we offer for our younger learners. We also provide traditional firearms safety classes for individual children and for Boy and Girl Scouts. These classes are designed to instill a deep respect for firearms and their proper handling, ensuring that each child understands the importance of safety when it comes to firearms. We believe that education is key in preventing accidents, and these classes help to foster a safe environment for everyone.

Women's curriculum

- We understand that women might have unique concerns and needs when it comes to firearms safety and self-defense. That's why we offer courses designed specifically for women, taught by experienced female instructors who provide a supportive and comfortable learning environment.
- Our women's training programs cover everything from basic firearms safety to advanced shooting techniques and self-defense strategies. We believe in equipping women with the knowledge and skills they need to feel confident and secure.

Medical Training

- At Nevada Firearms Academy and Range, we believe in equipping our community with lifesaving skills, which is why we offer Tactical Emergency Medical Support (TEMS) and Tactical Combat Casualty Care (TCCC) training and “stop the Bleed. These programs are designed to teach individuals how to respond effectively in emergency situations, providing crucial care until medical professionals arrive. Our experienced instructors guide participants through a range of scenarios, teaching them how to handle everything from minor injuries to severe trauma. We're proud to offer these valuable resources to our community, contributing to a safer environment for all.
- We believe everyone should have this knowledge, and we're proud to provide this crucial training to our community.

Nevada Archery Academy

- At Nevada Firearms Academy and Range, we also offer a fantastic archery experience through our other company Nevada Archery Academy. Here we have 17 lanes of 20-yard archery, perfect for children and families.
- We believe in providing safe and adventurous activities for families, so we've created leagues where families can have fun, learn new skills, and enjoy the thrill of competition. It's a great way to spend quality time together while learning a timeless sport!

Train the Trainer

- We offer 'Train the Trainer' programs through two prestigious organizations, the United States Concealed Carry Association (USCCA) and the National Rifle Association (NRA). These programs are designed to equip future trainers with the knowledge, skills, and credentials they need to instruct others in firearm safety and usage. Our curriculum is all-inclusive, covering everything from basic firearm safety to advanced shooting techniques. It's a fantastic opportunity for anyone looking to share their passion for firearms and safety with others!

NRA Range Safety Officer "RSO" CLASS

Washoe County Shooting Facility

WHAT WE INTEND TO OFFER.

Best In Class Service and Training to Our Community.

- Back in the early '80s, as a young boy I attended the ribbon-cutting ceremony for the Washoe County Regional Shooting Facility with my father. This event sparked a lifelong love for not only any and all range time, but more specifically, for being at this range. Since its inception, not a year has passed that I haven't visited. Over the years, I have witnessed many changes at the range, but also a decline in attendance, and attention to detail(s).
- Now as a grown man, I have used this facility for years to train others. So, when it took a temporary setback with its closure, I was more than slightly disheartened. However, after a meeting with the county and its leadership I saw an opportunity to get involved, an opportunity to potentially reinvigorate the place that I so loved as a boy.
- With my deep ties to this community and a vision in my heart, I decided to take action. I firmly believe that with a simple yet ambitious set of goals, i.e. exceptional customer service, unique training opportunities, and engaging community and industry events, I intended to breathe new life into the facility.
- I took a temporary seasonal position with the county to help keep the door open for our community, then I used that opportunity to begin to rebuild the platform that meant so much to me as a boy.
- We have already seen an increase in our customer base, and we have a clear following in the community, our reviews on social platforms are showing that our community supports what we are doing, and what it is that we hope to do.
- We have now also opened the doors to other instructors, encouraging them to come back and utilize this one-of-a-kind Northern Nevada facility. We have hopes to foster a diverse and inclusive environment. This is a goal to not only boost growth but also to infuse energy and excitement into the facility. And so here I sit, as the boy who once stood wide-eyed at the ribbon-cutting ceremony, now leading the charge to revitalize the place I have loved for so many years.

I took my wife and daughter to the range for the first time on October 09 in the afternoon and had the worst time. The staff was extremely rude and insulting. After paying I requested a space on the end, the Rangemaster replied, " oh? So i cant see you screw up!" He then sent his helpers to harrass us the rest of our time there, i will never go back to that range or recommend it to anyone i know and i will be making a formal complaint to whoever is the boss of these idiots.

I agree with the others, it's a great place to shoot but the staff has a poor attitude.

Agree with some other reviews. Range officers have an "attitude" at this place

Went to the range with some friends on 5/18/18, we are all EXTREMELY experianced shooters. The Range Safety Officer (RSO) was extremely rude and over bearing. Constantly hovering over the 3 of us and correcting any small thing that was wrong in his eyes. He constantly put his hands on our weapons and myself without permission. He also asked me to clear my HOLSTERED handgun while the range was cold and people were down range! Then proceeded to act as if it was my fault that he made a bad call. Awful RSO, please change your hiring standards as this man made the experiance very unpleasant. We left early because we no longer wished to be harassed by this joke of an RSO

Looks like a great place to shoot but the staff were the must unwelcoming, unfriendly, condescending pair I've ever met while trying to have a good time. I'll just continue to go off by myself in the desert instead. Way more fun that way!

We haven't been to the range in a few years because the old staff wasn't friendly, but we went back to sight in someone new firearms and we had a blast! The new staff was much more friendly and positive, and made sure everyone was safe. We are definitely coming back again!

The New Image...

- We're working hard to welcome more visitors to our park daily. But our top priority remains the cleanliness, safety, and service we provide our valued community. We're not just increasing numbers, we're enhancing experiences.

The Old Look...

THE NEW
LOOK...

Cleanup...

- We still have a substantial amount of cleanup to do at the facility.
- A lot , if not most of this is attributed to our user groups.
- We are working currently with the county to get this resolved.
- It's better, but we have work to do.

What does that look like you ask?

A sampling of Improvements so far.

Targets...

- We have found a better and more robust target system that we have had great success with .
- Targets last longer
- Targets are stronger
- Tape sticks better in the wind.

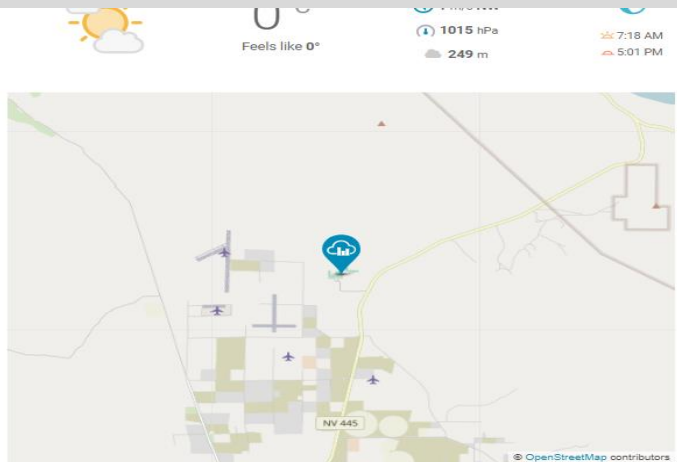

**NEW FLAG
POLES TO
ADD
WINDAGE
TO ALL
PUBLIC
LINES**

Outdoor Range

WEATHER STATION

- In our ongoing commitment to enhance your experience at our outdoor shooting range, we've installed a state-of-the-art outdoor weather station. This will enable you to check real-time weather conditions before your visit, ensuring you're always prepared for the elements.

PRONE...

- We have added large prone pads to both the East and West sides of the public line.
- These new pads will offer comfort and safety to our shooters.
- Previously there was not a place for the community to shoot in a prone or kneeling position. (as shown)

Community

- Now we have moved an old and broken information station that we repaired, rekeyed and moved to the center of the range entrance for our community to know what we are doing to be successful, and how they can be a part of it.

Handicapped Decks

- We have also added never before utilized handicapped decks for community shooters.

Sorry it has taken me so long to get back to you.

Yes we collect old ammo.

It can be turned in at the sheriff's office, Sparks Police Department, and Reno Police Department. We have "drop box mags" at these locations.

We have a couple different ways of doing this. I may have an extra drop box available that we could set up at the county range and it into the collection rotation if you are interested.

If you do have someone that has a lot or powders we can make arrangements to come and collect these items.

Let me know if this helps

nboyer@washoecounty.us

**Community safety...
New ammo drop off
center for the county.**

Cleanliness...

- We have added buckets behind each station, as well as hangers for the brooms and squeegees, getting them up off the ground and preventing slip and falls on them as well as the brass.

NEW PAINT ON THE
TARGET LINE, &
BUCKETS TO PROVIDE
WEDGES TO PROTECT
OUR CURBS.

SAFETY...

BAIT STATIONS ADDED THROUGHOUT THE FACILITY

Weeds...

- We have worked to eliminate what feels like a metric ton of weeds.
- This helps with cleanliness and safety from fire hazards.

WE HAVE PURCHASED 4 DRAGS AND BUILT ONE. WE NOW HAVE DRUG EVERY INCH OF THE PUBLIC LINE.

**NEW D.G.TO
REPAIR & RAISE
THE BERMS**

Deck Protection...

- We have purchased felt to attach to the bottom of the awnings.
- This will stop the dripping condensation, that hits the deck and then freezes, causing the deck to eat away and break.

New Designated Smoking Area.

- We added this to wrangle smokers and keep them off the line, giving them an area that protects them and those on our line from flames and ashes that could be detrimental to our customer base.

CLASSROOM VESTIBULE

(FUTURE LOOK)

IF YOU TAKE AWAY JUST ONE THING.

Let it be this:

PASSION...

We have a passion and a desire to continue this dream and build this facility into the best in class range it was originally designed to be. And we will do it through our community and the youth that continue to shine within our community.

We hope that message was clear.

Thank you so much for your time and consideration.
