

May Arboretum Report Dec 2025 – Jan 2026

Highlights

- ◆ 8,141 individuals visited the May Arboretum
- ◆ Arboretum has been experiencing Winter storms, but have received minimal damage due to efficient maintenance efforts performed such as tree canopy cleaning and path restoration.
- ◆ Greenhouse had a new controller installed enabling a more controlled environment and energy savings.
- ◆ Dragon Lights Reno event concluded with a total of 85,142 people attending. All lanterns and equipment from Tianyu have been packed up and removed from the park.

Arboretum Operations

- ◆ Perennials and annuals are being cut down for the season.
- ◆ Leaf clean up has slowed down as most of the leaves falling from oak trees.
- ◆ 10 trees had dead removed from the canopy.
- ◆ Interviews were held with Soulful Seeds for a second Arborist Apprentice.
- ◆ We have received about 20 yards of organic mulch from local tree companies to add to the gardens beds.
- ◆
