

Application for Senior Services Advisory Board

Additional Information:

I've never done any official volunteer work. I have however been a Life Coach specializing in Decision Making. Everything in life is a choice. There are always options to consider. I've never charged for this service...I have considered it my personal volunteer work. I'm almost 65 and looking forward to Medicare! My husband is almost 84 and has been retired 26 years. I was a caregiver for my mother for a while before she passed away. I understand Senior Life. I realize I do not live in District 2 and won't qualify for the position currently available. However if there is ever an opening in my district I would appreciate being considered for the position. I believe I can bring a valuable skill set to the Senior Services Advisory Board, and appreciate your consideration.
