STAKEHOLDER REVIEW(s)

Stakeholder is a primary Public Safety Answering Points (PSAP) – Washoe County Sheriff's Office Communications.

PREVIOUS ACTION BACKGROUND

The E911 Emergency Response Advisory board funds our 911 operational IP phone system through Intrado services.

FISCAL IMPACT

The Enhanced 911 Fund is a special revenue fund which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system. Budget authority exists within the E911 Fund to the travel and training to the public safety training conferences for registrations, seminars and meetings.

RECOMMENDATION

It is recommended that the E911 Emergency Response Advisory Committee approve the request to fund all costs associated with the purchase of two (2) additional Power911 workstations and associated cost in an additional monthly recurring amount not to exceed: \$3180.00, for Washoe County Communications PSAP.

POSSIBLE MOTION

Move to approve costs associated with additional Power911 workstations for Washoe County Communications in an additional monthly recurring amount not to exceed: \$3180.00.

Assumptions

Washoe County – Washoe SO PSAP Additional Power911 Workstations

The following are assumptions to provide additional Call Handling positions at Reno Public Safety Dispatch:

Washoe SO has requested quote to provide four additional 9-1-1 call handling workstations. If the SO accepts this quote, the additional workstations will be installed during a separate event that will be planned with both parties.

Washoe SO is a member of the existing Washoe County Great Migration agreement with West Safety Services. As such, pricing provided in this quote is as provided in that agreement.

It is presumed that the current 9-1-1 network provides sufficient capacity to handle the traffic burden for the additional workstations. However, if greater capacity is required, West will provide a separate quote for any required network expansion. Upon acceptance of this quote, West will perform the necessary engineering study to determine if additional network capacity will be required.

The additional workstations will be located at the same physical address as the current production systems for Washoe SO.

West will be responsible for providing and arranging for onsite technician support as needed to complete installation of West provided equipment, as a component of the upcoming equipment refresh project. If any additional onsite technician support is required by the SO, the SO shall be responsible for providing and arranging that additional support.

The collective project teams will work cooperatively to establish a project schedule for installation of additional equipment such that interruption to Washoe SO PSAP operations is mitigated to the extent possible.
