TO: 911 Emergency Response Advisory Committee

FROM: Rishma Khimji, Director of Technology, City of Reno Department of Information Technology, khimjir@reno.gov, 775-334-2026

SUBJECT: REQUEST FOR FUNDING FOR THE CITY OF RENO PUBLIC SAFETY (PS) DISPATCH PSAP - A review, discussion and possible action to approve, deny or otherwise modify a request for funding for PS Dispatch for ProQA for Priority Dispatch Medical Software licensing, training, quality assurance, support and accreditation associated with implementing a robust Emergency Medical Dispatch (EMD) services for a cost not to exceed \$151,000.00

SUMMARY

The City of Reno PS Dispatch PSAP is requesting funding to implement the EMD process and software through our vendor, ProQA. Per the directive of the Reno Fire Department and the City of Reno City Council, it was recommended that Reno's Public Safety Dispatch implement EMD processes to ensure a robust triage of incoming 911 calls requesting medical assistance.

EMD is the process by which a call requesting emergency medical assistance is handled by the PSAP. EMD is to accurately query the caller, select an appropriate method of response, provide pertinent information to responders and give appropriate aid and direction for patients through the caller.

EMD is the careful application and reference to a written, medically approved, emergency medical dispatch protocol for handling 911 call for medical assistance. EMD uses sound decisions concerning EMS responses that can be made in a safe, reproducible, and non-arbitrary manner. The benefits are realized because appropriate implementation, sound medical management and quality assurance/quality improvement (QA/QI) at dispatch are provided within the EMS system.

EMD is just one component of an efficient and quality EMS process. EMD is the first step in the process by allowing the dispatcher to triage the incoming request for assistance to match the level of medical assistance and resources required based on the specific needs of the patient. EMD is designed to maximize effectiveness and efficiency by sending the right resources to the right person in the right way at the right time.

The result will be that life threatening and serious emergencies will receive the highest level of response, which may include both a fire truck and an ambulance with lights and sirens activated. While a less serious and non-emergent medical needs that require assistance will be dispatched with a single EMS unit without lights or sirens and at the normal speed of traffic. This method will allow critical equipment to remain available for life threatening emergencies, while still allowing the fire department to respond effectively to all types of calls.

Therefore, it is advised that City of Reno Public Safety Dispatch move towards implementing the EMD process. Washoe County Emergency Dispatch has already implemented the EMD process and software. The City of Reno is looking to implement their own software and protocols that could be shared with the other agencies in a cooperative manner.

NRS APPLICABLE:

The Enhanced 9-1-1 Fund is a special revenue fund, which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system.

NRS 244A.7645 Provides approval of costs associated with maintenance, upgrade and replacement of equipment necessary for the operation of the enhanced telephone system.

STAKEHOLDER REVIEW(S)

Stakeholder is a primary Public Safety Answer Point (PSAP) – City of Reno Public Safety Dispatch.

FISCAL IMPACT

The Enhanced 9-1-1 Fund is a special revenue fund, which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system.

RECOMMENDATION

It is recommended that the E911 Emergency Response Advisory Committee approve the request for funding the costs associated with implementing EMD for the City of Reno Public Safety Dispatch through Pro-QA Priority Dispatch, not to exceed funds of \$151,000.00.

POSSIBLE MOTION

Move to approve that the E911 Emergency Response Advisory Committee approve the request for funding the costs associated with implementing EMD for the City of Reno Public Safety Dispatch through Pro-QA Priority Dispatch, not to exceed funds of \$151,000.00.
