

DATE: November 8, 2021
TO: 911 Emergency Response Advisory Committee
FROM: Douglas Campbell, Sparks Police Department, IT Administrator, 775-353-2241 ext. 5545, dcampbell@cityofsparks.us
THROUGH: Chris Crawforth, Chief of Police
SUBJECT: REQUEST FOR FUNDING IN THE AMOUNT OF \$7,873.17 FOR NETWORK EQUIPMENT AND COMPUTER SPEAKERS FOR COMPUTER CONSOLE WORKSTATIONS [For possible action] – A review, discussion and possible action to approve, deny or otherwise modify a request for funding for the costs associated with network equipment and computer speakers for new Dispatch console workstations.

SUMMARY

This request is to approve 911 funding for the Sparks Police Department to cover the cost of switches, cables, connectors, labels and speakers to outfit the 10 new 911 console workstation positions.

NRS APPLICABLE:

NRS 244A.7645 provides approval of costs associated with maintenance, upgrade and replacement of equipment necessary for the operation of the enhanced telephone system.

STAKEHOLDER REVIEW(s)

Stakeholders are the Sparks Police Department Public Safety Answering Point.

PREVIOUS ACTION

On May 20, 2021, the 911 Emergency Response Advisory Committee approved the purchase of the 10 new Dispatch console workstations for the remodeled Dispatch center in Sparks Police Department.

BACKGROUND

The Sparks Police Department purchased their ten (10) new dispatch consoles in May after receiving approval from the E911 Emergency Response Advisory Committee. These consoles will contain all the computer equipment needed to perform their Dispatching function. Since all the video cabling and USB cabling is threaded through the console from the computers to the displays and front panel of the consoles, they require much longer cables than we have used anywhere else in the department. In addition, two network switches needed to be added to the Police Department network to handle this new equipment. Each of the 10 consoles require seven (7) 25 ft. video cables and five (5) display port adapters to connect the 7 video monitors, along

with two (3) USB Extenders from the computer to the front panel of the console. In addition, all cables must be labeled to properly identify them. Also, because 4 of the consoles have new monitors that were purchased on a prior E911 Agenda item, we needed to add two (2) new computer speakers with cables and adapters for each of those 4 consoles.

The total order is for two (2) 24 port Aruba network switches, eighty (80) 25 ft video cables (10 are spares), fifty (50) mini display port adapters, fifteen (15) display port adapters, thirty-five (35) USB extenders (5 are spares), ten (10) USB Keystone adapters, eight (8) HP S100 speaker bars, and 3 rolls of DYMO labels.

FISCAL IMPACT

The enhanced 911 Fund is a special revenue fund which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system. Budget authority exists within the E911 Fund to purchase the workstation equipment for a cost of \$7,873.17.

RECOMMENDATION

It is recommended that the E911 Emergency Response Advisory Committee approve the request by the Sparks Police Department for funding in the amount of \$7,873.17 for network equipment, cables, connectors, labels and computer speakers for (10) new 911 console workstations.

POSSIBLE MOTION

It is recommended that the E911 Emergency Response Advisory Committee approve the request by the Sparks Police Department for funding in the amount of \$7,873.17 for network equipment, cables, connectors, labels and computer speakers for (10) new 911 console workstations.
