

DATE: 5/7/2024

TO: 911 Emergency Response Advisory Committee

FROM: Ryan Sommers, Fire Chief, North Lake Tahoe Fire Protection District,
rsommers@nltpd.net, (775) 831-0351

SUBJECT: REQUEST FOR APPROVAL FOR funding for the renewal of First Due software suite that will interconnect CAD data, routing for responding resources, pre-incident planning, and high-risk occupancy data management for the North Lake Tahoe Fire Protection District in an amount not to exceed \$9,807.00

SUMMARY

The North Lake Tahoe Fire Protection District is requesting funding for the renewal of software that will interconnect our CAD data to a suite of applications that will enhance the information available to responding resources.

BACKGROUND

The First Due software suite is already in service for the Reno Fire Department, Sparks Fire Department and the Truckee Meadows Fire Protection District. The software increases safety for responders by linking several databases together and sending live information to responding resources. With North Lake Tahoe Fire Protection District joining the application, all County regional partners will be utilizing the same platform, therein increasing interoperability and information sharing between the jurisdictions.

First Due has held through the times and continued to grow their product. Regional partners report satisfaction with the product features including linked CAD data, response routing, pre-incident planning, and community engagement through the community connect platform. This product has enhanced emergency response with improved information sharing for responder, citizens, and businesses in our region. Currently, the North Lake Tahoe Fire Protection District seeks approval to join with our regional partners to improve upon the delivery and safety of our emergency service delivery to our community.

The attached invoice reflects the following:

*Quote for Software on a one-year contract (one payment): \$9,807.00

NRS APPLICABLE

NRS 244A.7645 proved approval of costs associated with maintenance, upgrade, and replacement of equipment necessary for the operation of the enhanced telephone system.

In addition, this funding would also be in compliance with NRS 244A7645(3).

STAKEHOLDER REVIEW(s)

Stakeholders are the City of Sparks Fire Department.

PREVIOUS ACTION

The First Due software suite has previously been approved for the Truckee Meadows Fire Protection District, Reno Fire Department and Sparks Fire Department (E9911 Advisory Committee Meeting).

FISCAL IMPACT

The Enhanced 911 Fund is a special revenue fund which receives revenue pursuant to NRS 244A.7643 in the form of telephone surcharges collected to support the emergency reporting system. Budget authority exists within the E911 Fund to support the automated size-up, pre-incident planning and high-risk occupant related data management software subscription. The total cost for the renewal is \$9,807.00

RECOMMENDATION

It is recommended that the E911 Emergency Response Advisory Committee approve the request for funding for an automated size-up, pre-incident planning, and high-risk occupant related data management software subscription for the North Lake Tahoe Fire Protection District, in an amount not to exceed \$9,807.00

POSSIBLE MOTION

Motion to approve funding the purchase of First Due fire response software that will provide CAD data, routing to responding resources, pre-incident planning, and high-risk occupant related data management for the North Lake Tahoe Fire Protection District for fiscal year 2023-2024 in an amount not to exceed \$9,807.00
